Introducing the New API

A minimalist theme with its own title and section pages

Daniel Osei

Developer Platform

August 27, 2026

Overview

1. What changed

2. Migration

Highlights

- A single token replaces the three legacy auth headers
- Pagination is now cursor-based instead of offset-based
- Rate limits are returned in response headers, not just on 429

Timeline

Date	Milestone
Sep 1	New API available in parallel
Oct 1	Old API marked deprecated
Dec 1	Old API turned off

Getting help

Docs

- Migration guide
- Changelog

Support

- #api-migration channel
