COURSEWORK

GRADUATE

Machine Learning

Distributed Systems

Compilers

Computer Networks

UNDERGRADUATE

Data Structures & Algorithms

Operating Systems

Computer Architecture

Databases

SKILLS

PROGRAMMING

Daily use:

Python • Go • TypeScript • SQL

Familiar:

Rust • C++ • Java

EXPERIENCE

ACME CORP | SOFTWARE ENGINEER

Jun 2023 - Present | Springfield, ST

- Built and shipped a service that reduced checkout latency by 40% for 2M+ monthly users.
- Led migration of the billing pipeline from a monolith to a queue-based worker architecture.
- Mentored two junior engineers through onboarding and their first production releases.

GLOBEX INC. | SOFTWARE ENGINEERING INTERN

Jun 2022 - Aug 2022 | Springfield, ST

- Implemented a caching layer for the search API, cutting median response time by 30%.
- Wrote integration tests that caught three regressions before they reached production.

PROJECTS

TRAILMAP | PERSONAL PROJECT

- A route-planning web app; over 500 GitHub stars and 40 contributors.
- Built with React, Node.js and PostGIS.

AWARDS

2024	1 st /80	University Hackathon
2023	Finalist	Regional Programming Contest
2022	2 nd /120	Departmental Coding Competition
