

Hello, World

Your Name

October 12, 2026

1 Getting started

This document compiled on the first try. Edit this text and the preview updates; everything you see here is ordinary L^AT_EX.

2 A little structure

Sections, emphasis (*like this*), and lists are all you need to begin:

- Add a section with `\section{...}`.
- Cite a source with `\cite{...}` once you add a bibliography.
- Link to a page with a hyperlink.

3 Some mathematics

Inline maths such as $e^{i\pi} + 1 = 0$ sits in the text, and display equations get their own line and number:

$$\int_0^1 x^2 dx = \frac{1}{3}. \tag{1}$$
