Spend

Opportunities

» Where the money goes

Category	% of spend
Compute	54%
Storage	21%
Networking	15%
Other	10%

» Where we can cut

* Idle staging clusters left running over weekends
* Oversized instance types on three low-traffic services
* Duplicate log retention across two regions

Proposed changes

Quick wins

- Auto-shutdown staging at night
- Right-size two services

Needs sign-off

- Single-region log retention
- Reserved instance commitment
