Profile

Full-stack developer with a preference for small teams and short feedback loops. Comfortable owning a feature from database schema to deployed UI.

Work experience

2020 – Present

Bramble Software, Lyon

Senior Full-Stack Developer

Own the billing and subscriptions module for a B2B SaaS product, serving roughly 4,000 paying accounts. Migrated the payment provider integration from a polling model to webhooks, cutting reconciliation errors to near zero.

2017 – 2020

Verrine Digital, Lyon

Full-Stack Developer

Built the customer-facing dashboard (React, Node.js) for a logistics tracking product. Introduced the team's first automated end-to-end test suite.

2015 – 2017

Freelance

Web Developer

Delivered small marketing sites and WordPress builds for local businesses.

Education

2013 – 2015 **MSc Computer Science**
Université Claude Bernard Lyon 1

2010 – 2013 **BSc Computer Science**
Université Claude Bernard Lyon 1

Open-source projects

2023 **qlog (github.com/example/qlog)**
Small structured-logging library for Node.js

2021 **pgmigrate-lite**
Minimal Postgres migration runner, 300 stars

Languages and skills

Languages French (native), English (fluent), Spanish (basic).

Backend Node.js, PostgreSQL, Redis, Docker.

Frontend React, TypeScript, Tailwind CSS.

Practices CI/CD pipelines, code review, on-call rotations.
