YOUR PAPER TITLE HERE

Ada Lovelace, Institute of Analytical Engines, London, United Kingdom
Second Author, Another University, Springfield, USA

Abstract

Replace this with your abstract. A good abstract states the problem, what you did, and what you found — in that order, and without citations.

Introduction

Start here. Cite things like this (Knuth, 1984).

SAGEEP papers are applied-geophysics conference contributions. The class supplies the single-column page geometry and centred heading style the symposium expects, on top of the standard article class.

Method

Describe the survey design, instrumentation and processing.

Results

Table 1: A caption belongs above a table.

Survey line	Depth (m)	Resistivity (Ωm)
Line A	12.4	310
Line B	8.1	145

Table 1 reports the inverted values.

Conclusions

Summarise the finding and name the next step.
